dynamic fresh system®

dynamic fresh system® by Irinox is the revolutionary process that, thanks to Irinox technology, preserves the original freshness and flavour of your food over time.

dynamic fresh system® lets you do your best work!

dynamic fresh system® offers your customers the best of the simplest, freshest flavours, whether you're serving à la carte or a catering.

A harmonious working environment, satisfied customers thrilled by a menu which meets their highest expectations, a dining experience to enjoy and share with friends...

With **dynamic fresh system®** you can preserve the freshness and quality of the food you prepare. You can prepare every dish to perfection in a few minutes.

Irinox | 3

First class honours...

top marks every time!

dynamic fresh system®

Every meal requires different preparation times. These need to be taken into account when trying to keep delivery times down.

With Irinox technology you always know you can deliver your best with every meal.

Fresh pasta, oven baked pasta, gnocchi and "risotto al dente" the true taste of a good home-made first course, unique traditional flavours, delicate fillings, the texture of fresh pasta and fragrant sauces. Every ingredient is at its best thanks to the **dynamic fresh system®**'s ability to provide the right balance of refrigeration and ventilation.

Fish, braised meats, roasts, game, roast beef... different preparation times and processes, served on demand, at their absolute best, in just a few minutes. Even the most delicate meat and fish are rich and moist, with that just cooked feel, thanks to the **dynamic fresh system®**'s internal product moisture-control no more dry, stringy meat.

Cooked vegetables: all the structural compactness of produce that has been cooked just right. Really taste the different flavours of each different vegetable. Marvel at the bright, fresh appearance. With the **dynamic fresh system®** not only do **vegetables not oxidize**, they also retain their **bright colours**. Enjoy a healthy meal rich in all the right vitamins and minerals (previously lost through evaporation).

Desserts: a wealth of new combinations for the last course on a satisfying menu. Your fussiest customer will never forget you. Express yourself!

time and management: the most important ingredients in my work

dynamic fresh system®

Prepare food in advance, without worrying about when it has to be served.

Thanks to the **dynamic fresh system®** you no longer need to repeatedly prepare the same food day after day.

It's up to you to choose the right time, whether it be in the morning, after hours or even days in advance.

By increasing the quantity of food you prepare you optimize your use of time and systems, spreading your workload over the week. No more high costs for casual and overtime labour.

You're in control. During meal times you can spend time in the dining room looking after your customers. You will even be able to easily manage daily and holiday peaks.

...discover the joy of cooking while providing a wider choice.
...do your best work and have time for a smile!

the intelligent way to work

... focusing on profits

Irinox technology lets you prepare food well in advance of when you need to serve it. You have much more time to spend preparing ready-made meals using guaranteed fresh high quality produce.

dynamic fresh system®

You can plan your work in the kitchen and make the most of the available time. Whether you're preparing 10, 20, 60, 1000 or more meals ... all your meals will be served as fresh as fresh can be.

Boost profits immediately *

	Minimum profit increase per month	Minimum profit increase per year (11 months)
50 Meals	€ 2.450,00	€ 26.950,00
100 Meals	€ 4.150,00	€ 45.650,00
200 Meals	€ 6.400,00	€ 70.400,00

* 9 out of 10 people achieve these outcomes in the first month.

Increase profits: a simple calculation

- 30-40% time saving thanks to improved work efficiencies, optimized time and resources;
- 5-7% extra portions thanks to reduced weight loss (from reduced evaporation);
- 12-15% primary materials cost reduction and elimination of waste;
- 10% nett profit increase: no more unsold or waste product;
- 10% energy savings by operating equipment at full capacity.

Work smarter and boost profits! ...see the difference!

dynamic fresh system®
